Central Florida Cancer Institute Center's Breast Cancer Program Re-Accredited Through 2027 Davenport, FL

Davenport, FL – Central Florida Cancer Institute Center is proud to announce its Breast Cancer Program has been re-accredited through 2027 by the National Accreditation Program for Breast Centers (NAPBC), overseen by the American College of Surgeons.

To achieve NAPBC accreditation, the Central Florida Cancer Institute Center demonstrated a strong commitment to offer patients the best possible care in their battle against breast disease.

Our Davenport Cancer Center team's passion is to use clinical expertise and advanced technology to take the best care of patients and their families filled with hope and positive energy with our staff and patients.

To receive accreditation, our Davenport Cancer Center complied with standards established by the NAPBC for treating women who are diagnosed with the full spectrum of breast disease. These standards include proficiency in leadership, clinical management, research, community outreach, professional education and quality improvement.

Receiving care at the Central Florida Cancer Institute Center being NAPBC-accredited ensures that a patient will have access to:

- Comprehensive care, including a full range of state-of-the-art services.
- A multidisciplinary team approach to coordinate the best treatment options available.
- Information about ongoing clinical trials and new treatment options.

This accreditation gives patients considering the Central Florida Cancer Institute Center confidence knowing that they will have access to comprehensive, state-of-the-art care; a multidisciplinary care approach; information about ongoing clinical trials and new treatments; and quality breast care, close to home.

We are so proud of our Davenport Cancer Center earning this re-accreditation is the result of the hard work of our team members who provide remarkable care during our patients' times of critical need.

About the NAPBC

The National Accreditation Program for Breast Centers (www.accreditedbreastcenters.org) is a consortium of professional organizations dedicated to the improvement of the quality of care and monitoring of outcomes of patients with diseases of the breast. This mission is pursued through standard-setting, scientific validation, and patient and professional education. Its board membership includes professionals from 20 national organizations that reflect the full spectrum of breast care.

About Central Florida Cancer Institute Center

The Central Florida Cancer Institute was founded in the year 2000. Two offices, located in Davenport and Lake Wales, offer radiation oncology and general urology services. The medical staff consists of radiation oncologists, a radiologist and urologists providing a multi-disciplinary approach in treating and caring for patients. Our cancer center in davenport was designed and managed by Dr. Randy Heysek, is staffed with trained medical, clerical and administrative personnel, who are dedicated to the treatment of cancer patients. Each center offers state-of-the-art technology. We provide complete cancer care close to home.
